ILI9225 2.0 Inch Serial Port TFT Display Module SPI Interface 176x220 3/5.5V

Product Introduction:

1.Size:2.0 inch SPI seial bus
2.Resolution:176*220
3.Driving IC:ILI9225

Features:

1.Support Arduino MCU direct insertion,don't need any connections
2.Integrated stabilivolt IC,support 5V or 3.3V power supply
3.Compatible with 5V/3.3V IO level,support MCU IO connections
4.Integrated backlight control circuit,can control on/off or PWM dimming
5.Integrated SD card expansion circuit
6.Preserve SPI FLASH word circuit,easy tot expand applications
